

GLOBAL GREEN GROWTH WEEK 2024

Green Growth in Times of Uncertainty

Oct. 14 ~ 18, 2024 -
Seoul, Republic of Korea

Oct. 21 ~ 25, 2024 -
Cali, Colombia

Our Context

In a world of uncertainty and diverse challenges, green growth is crucial. At GGGI, we advocate for a collaborative approach to tackle sustainability crises like climate change. By bridging national boundaries and political differences, we can work together to reduce greenhouse gas emissions, adapt to climate impacts, and build resilience. This collaboration also creates opportunities for new green jobs and sustainable energy utilization, fostering inclusive growth. However, navigating these complexities requires investments in knowledge sharing and capacity building to empower individuals and institutions to drive positive change.

Against this backdrop the 2024 edition of GGGI's global flagship conference – Global Green Growth Week 2024– brings together policymakers, investors, innovators, thought leaders, and delivery agents from public and private sector to offer insights and learnings about solutions, innovations that can achieve the needed green growth transformation especially in times of uncertainty.

Global Green Growth Week

Future-Ready Training Transformative Climate Action

2023 Global Green Growth Week Mexico City, Mexico Oct. 23-27, 2023

Our Approach

In 2024, we will continue to organize our sessions around the four dimensions (Goals) of [GGGI's Green Growth Index](#) and reflect on how even “in times of uncertainty” green growth can be advanced. We will focus on the four pillars of the Green Growth Index namely: (1) *Efficient and sustainable resource use*; (2) *Natural capital protection*; (3) *Green economic opportunities*; and (4) *Social Inclusion*. Furthermore, we will apply four specific lenses through which we frame our sessions and knowledge sharing. These four lenses are:

1. Economic Uncertainty/Economic instability
2. Climate/Natural Disasters
3. Conflict and Fragility
4. Political transitions

We will also continue with our commitment to engage young people in achieving a just transition. With this special attention we aim to open our knowledge sharing with young climate advocates and leaders.

Call for Presentations

GGGI is calling for Presentations that clearly link with the theme of the conference. Your interest and participation are appreciated and is the backbone of the success of the Global Green Growth Week 2024.

Who is eligible to apply?

Anyone is eligible to apply for the Call for Presentations. Youth groups, groups addressing gender and social inclusion for green growth in times of uncertainty are especially encouraged to apply.

Key Timelines

- *Extended Submission Deadline: July 14 - Closing of Call for Presentations*
- *July 15 - Selection of presentation session*
- *August 15 - Registration portal opens on [GlobalGreenGrowthWeek.org](https://www.globalgreengrowthweek.org)*

How will Presentation be selected?

The following selection criteria will be used to evaluate Presentations:

- Demonstrate link to the conference theme.
- Showcase innovation and practical solutions to problems and challenges of green growth in times of uncertainty.
- Contribution to filling knowledge gaps on topic.

Format and Dates

GGGI is committed to “driving, growing, and empowering green growth through knowledge transfer” as stated by the Global Operational Priorities (Priority 7) of GGGI’s Strategy 2030. Considering this ambition GGGI will host the 8th annual flagship knowledge convening and sharing event “Global Green Growth Week 2024 between 14-18 October.

The event brings together GGGI’s Member States, Partners, and other external stakeholders including practitioners, students, academia, and interested individuals at country, regional, and global levels. GGGWeek2024 is organized in the margins of GGGI’s Assembly and Council joint sessions, and in the leadup to UNFCCC Conference of Parties COP29 and as such the outcomes and outputs will be utilized through these follow up opportunities.

Global Green Growth Week 2024 will feature high-level panel discussions, keynote speeches, interactive sessions and debates that will highlight examples of solutions and best practices to advance the implementation of the Paris Agreement and NetZero pledges. The event will also engage and forge partnerships with global green growth leaders and practitioners and will provide participants with learning and sharing opportunities across a range of sectors and topics.

Global Green Growth Week2024 will be hosted from *Monday October 14 to Friday October 18, 2024, in Seoul, Republic of Korea – Online and limited in person seating.*
